

UpNano is a young, successful high-tech company that is specialised in the development, production and commercialisation of ultra-high resolution 3D printing systems and is currently the global technology leader in 2PP (2-photon polymerisation) based 3D printing with the NanoOne. Due to the market success of the past months, we want to expand our team and drive the growth and internationalisation of the company. To support our team, we are looking for a motivated:

SERVICE ENGINEER (f|m|d) **40 HOURS (FULL TIME)**

WE EXPECT

- Completed technical education (apprenticeship/HTL/FH/university)
 - Sound knowledge in equipment development, manufacturing or service
 - Willingness to travel (worldwide)
 - Excellent German and fluent English skills
 - Flexible, independent work
 - Flexibility, team spirit and hands-on mentality
- optional:
- Experience with laser and laser safety
 - Driving license (B)

TASKS

- Installation and commissioning of UpNano products at customer site
- Execution of test protocols and acceptance tests
- Supporting the assembly of the printing systems
- Documentation of installation and service activities
- Supporting customers with application questions

WE OFFER

- Innovative and growth-oriented company
- Collaboration in the development team with a high degree of personal responsibility
- Exciting, innovative working environment with a pleasant atmosphere
- Wide range of tasks and development opportunities
- Flexible working hours, company laptop & home office option
- Easy to reach by public transport due to metro and bus connection.

We offer a gross monthly salary of EUR 2,200, based on 40 hours per week, with a willingness to overpay depending on previous experience and qualifications.

**If you love exciting challenges and enjoy working with different people,
we look forward to receiving your application!**
