

UpNano is a young, successful high-tech company that is specialised in the development, production and commercialisation of ultra-high resolution 3D printing systems and is currently the global technology leader in 2PP (photon polymerisation) based 3D printing with the NanoOne. Due to the market success of the past months, we want to expand our core team to drive the growth and internationalisation of the company. To support our team, we are looking for a motivated:

TECHNICAL PURCHASING AND LOGISTIC MANAGER (m/f/d) 40 HOURS FULL TIME

WE EXPECT

- A degree in business administration (apprenticeship/HAK/FH/University) preferably with a focus on merchandise management, logistics and/or purchasing
- Professional experience in technical procurement is a plus
- English/German fluency spoken and written
- Flexibility, team spirit and hands-on mentality

TASKS

- Purchasing materials and involvement in the implementation of an ERP system
- Coordination with suppliers and clients
- Monitoring the supply chain for UpNano sales products, accessories, and printing material
- Warehouse optimization
- Process monitoring and coordination from order to delivery
- Establishment of a product life cycle management

WE OFFER

- Exciting, innovative and flexible work environment with a pleasant atmosphere
- High degree of personal responsibility and freedom in performing your tasks
- Support the development team in creating new prototypes
- Wide range of tasks and development opportunities within our company
- Free in-house fitness center

We offer you a gross monthly salary of EUR 3.200, based on 40 hours per week, with a willingness to overpay depending on previous experience and qualifications.

If you love exciting challenges and enjoy working with different people that are passionate about their innovative products, we look forward to receiving your application!
